FOP 34 ♡ (Caleb Essig)

12/14/18

Came up here to write some prose — can we do what they used to do in the log books and write little notes to each other? I was reading through some of the old ones and it's super cute!

-Kerda Wilkinson

(Also, the dome was still plugged in when I arrived, and a lens was still in the telescope. The axis still isn't working!) ☹

12/15/18

Came up to see if telescope could see through clouds. Proved unsuccessful.

12/19/18

Caleb Gong

12/19/18

Theodora, Kate, &amp; Maggie

12/22/18 Came up here to ponder. Too windy to observe. Right ascension axis too rough. At least the sky is beautiful...

Ahmed Osman

Tried opening dome — view of moon almost vertical. But could not find wide angle eyepiece!

Curtis McMullen 11pm

12/24/18: Beautiful views of the Orion nebula + Moon.
